

Hands-On Workshop

Nonlinear Mixed Effects Modeling Workflows using Pumas

4th - 5th Nov 2025

9:30 - 17:00 JST

Campus Plaza, Kyoto, Japan

This hands-on, two-day workshop is tailored for both beginners and those with some experience in clinical pharmacology data analytics. Dive into Pumas, a cutting-edge pharmacometric platform for modeling and simulation in drug development. Participants will explore workflows ranging from foundational concepts to advanced applications.

Key Highlights

- Sequential PKPD
- Clinical Trial Simulation
- Population Pharmacokinetics
- DeepNLME for Covariate Identification
- DeepNLME for Dynamical System Identification

INSTRUCTOR

Dr. Vijay Ivaturi
CEO, PumasAI
